## TECHNICAL SOLUTIONS

Automatic supporting wheel ensures stable trailer parking.  
Platforms integrated with mudguards. Provided with anti-slip surfaces. Facilitating drum loading.  
Lack of a standard lighting beam makes the drum loading time faster.  
A robust rope winch with an automatic brake, provided with a system of bearing-installed roller for more smooth operation.  
Trailer stabilisers provide stabilisation during loading.  
Shock absorbers supporting operation of the transport stand during loading.
